This is your free Index to this year's Journal. It has been designed as a 4-page pull-out supplement; please remove carefully from the staples and file with your 1979 issues.

INDEX TO PRODUCTION ENGINEER Vol 58 1979

Journal of the Institution of Production Engineers

Subject index

A

Accounts: Annual report and accounts 1977-1978, **Jan p27**
Adhesives: Selecting adhesives for engineering assembly, **Dec p37**
Air control aids recruitment; Ingemar Tranelid, **Mar p28**
Annual dinner speech; Eric Varley, **Jan p22**
Annual dinner speech; Joe Reeve, **Jan p20**
Annual report and accounts 1977-1978, **Jan p27**
Are retro-fits the answer to 'obsolete' NC?, **Apr p25**
ASP: Moving to un-manned production, **Oct p21**
Automated small batch production: Moving to un-manned production, **Oct p21**
Automation: Investment is the key to Sweden's foundry automation, **Mar p26**

B

Batch manufacture: Giving flexibility to batch manufacturing; John Collins, **Feb p31**
BNCS 79 (exhibition preview), **Apr p35**
Boring: Deep hole boring catches up with modern technology, **Jul/Aug p39**
Britain's first robot exhibition, **June p23**
British universities—are they overdue for rationalisation; Douglas Probert, **Oct p27**

C

Capacity planning and scheduling for agricultural machinery manufacture; John Chester, **Jul/Aug p22**
Capacity planning in an aerospace components factory; R G Acton, **Jul/Aug p22**
Casting with metal slurries; G H West and B Seymour, **Nov p31**
CEI: In defence of the CEI; Dr George Hislop, **Sep p33**
Channel furnace solutions: Kjell-Ove Karlsson, **Mar p27**
Come and talk to me—annual dinner speeches, **Jan p20**
Computers: A user's view of DP-based materials planning; J E G Fletcher, **Jul/Aug p24**
Computers: Capacity planning and scheduling for agricultural machinery manufacturers; John Chester, **Jul/Aug p22**
Computers: Capacity planning in an aerospace components factory; R G Acton, **Jul/Aug p22**
Computers: Demand forecasting; Les Nuttman, **Jul/Aug p21**
Computers: Do-it-yourself computer systems, **Jul/Aug p17**
Computers: Evolution and interaction of design and production information; Dr G W Shaw, **Jul/Aug p26**
Computers: How to prevent your computerised bill of materials becoming a white elephant; K S Benjamin, **Jul/Aug p25**
Computers: Implementation of a computerised work-in-progress control system; C A Martin, **Jul/Aug p23**

Computers: MRP refinements using on-line systems; Haydn Chappell, **Jul/Aug p23**
Computers: Shopfloor data collection; R M Hamilton, **Jul/Aug p25**
Computers: Shop loading in a machine building environment using a mini-computer; N G Norton, **Jul/Aug p22**
Computers—the effective way to manage manufacturing, **Jul/Aug p21**
Computers: Time standards—a computer approach; K F Wills, **Jul/Aug p24**
Council: IProdE Council 1979/80, **Oct p65**
Creep feed grinding—the answer to a production engineer's dream?, **Dec p20**
Cutting fluids: How not to treat cutting fluids, **Oct p17**

D

Deep hole boring catches up with modern technology, **Jul/Aug p39**
Delphi's 'Things to come', **Apr p61**
Demand forecasting: Les Nuttman, **Jul/Aug p21**
Die casting: Casting with metal slurries; G H West and B Seymour, **Nov p31**
Do-it-yourself computer systems, **Jul/Aug p17**
Don't be afraid of the robot, **June p21**
Drilling comes of age, **Mar p33**

E

East Germany: Machine tool manufacturing in East Germany, **Oct p35**
Education: British universities—are they overdue for rationalisation; Douglas Probert, **Oct p27**
Electricity consumption: The vital half hour—or how to reduce your electricity bills, **Sep p28**
Engineering into the '80s; Kenneth Adams, **Jul/Aug p33**
Equal opportunity: The management of equal opportunity (1979 Sir Alfred Herbert Paper); Rt Hon Baroness Seear, **June p28**
Evolution and interaction of design and production information; Dr G W Shaw, **Jul/Aug p26**
3.EMO—a look at the latest in machine tool technology, **Oct p51**

F

Foundries: Air control aids recruitment; Ingemar Tranelid, **Mar p28**
Foundries: Channel furnace solutions; Kjell-Ove Karlsson, **Mar p27**
Foundries: Investment is the key to Sweden's foundry automation, **Mar p26**
Foundries: Robots make sense in hazardous jobs; Karel Erazim, **Mar p26**

G

Giving flexibility to batch manufacturing; John Collins, **Feb p31**
Grinding: Creep feed grinding—the answer to a production engineer's dream?, **Dec p20**

H

Hancock: (1979 E W Hancock Paper), A perspective of a teaching company programme; Prof Roy Sury, **May p36**
Has this man the answer to Britain's manufacturing malaise?, **Sep p19**
Health and Safety: Air control aids recruitment; Ingemar Tranelid, **Mar p28**
Herbert: (1979 Sir Alfred Herbert Paper), The management of equal opportunity; Rt Hon Baroness Seear, **June p28**
How CNC punching is revolutionising sheet metal working; Matt Lincoln, **Nov p19**
How microprocessors are made; R D Conway, **Feb p19**
How not to treat cutting fluids, **Oct p17**
How the government can help, **Feb p36**
How the Marshes became an NC family, **Apr p19**
How to decide when to replace machine tools; Dr Joseph Cullen and Fred Graham, **Apr p53**
How to prevent your computerised bill of materials becoming a white elephant; K S Benjamin, **Jul/Aug p25**

I

Implementation of a computerised work-in-progress control system; C A Martin, **Jul/Aug p23**
In defence of the CEI; Dr George Hislop, **Sep p33**
Injection moulding: Minis for process control in injection moulding; Dr Gary Edwards, **Feb p35**
Inside the microprocessor; R Howes and A A Thompson, **Feb p17**
Inspection by sampling; Harry Croasdale, **Sep p55**
Integrated manufacturing systems—a challenge: Cyril Hancock, **Dec p49**
Investment is the key to Sweden's foundry automation, **Mar p26**
IProdE Council 1979/80, **Oct p65**

J

Japan: A visit to Japan; Alan Jones, **Jul/Aug p47**
Japan: Quality circles—Japan's way to better quality, **Nov p35**

M

Machine tool manufacturing in East Germany, **Oct p35**
Machine tools: 3.EMO—a look at the latest in machine tool technology, **Oct p51**
Machine tools: How to decide when to replace machine tools; Dr Joseph Cullen and Fred Graham, **Apr p53**
Making Britain quality conscious, **May p46**
Man with his head on the block, The; Vas Prabhu and Jon Russell, **May p27**
Management of equal opportunity, The (1979 Sir Alfred Herbert Paper); Rt Hon Baroness Seear, **June p28**
Manufacturing: Integrated manufacturing systems—a challenge: Cyril Hancock, **Dec p49**
Manufacture: The manufacture of printed circuit boards: R H Pritchard, **Dec p29**
Manufacturing management: Computers—the effective way to manage manufacturing, **Jul/Aug p21**
Microprocessors: How microprocessors are made; R D Conway, **Feb p19**

Microprocessors: Inside the microprocessor; R Howes and A A Thompson, **Feb p17**
Minis and micros in manufacturing: Giving flexibility to batch manufacturing; John Collins, **Feb p31**
Minis and micros in manufacturing: How microprocessors are made: R D Conway, **Feb p19**
Minis and micros in manufacturing: How the government can help, **Feb p36**
Minis and micros in manufacturing: Inside the microprocessor; R Howes and A A Thompson, **Feb p17**
Minis and micros in manufacturing: Minis for process control in injection moulding; Dr Gary Edwards, **Feb p35**
Minis and micros in manufacturing: Monitoring the quality of resistance spot welding; John Broomhead, **Feb p27**
Minis for process control in injection moulding; Dr Gary Edwards, **Feb p35**
Monitoring the quality of resistance spot welding; John Broomhead, **Feb p27**
Moving to un-manned production, **Oct p21**
MRP refinements using on-line systems; Haydn Chappell, **Jul/Aug p23**

N

Nuffield: (1979 Viscount Nuffield Memorial Paper) A road to economic recovery; Sir John Greenborough, **Sep p56**
Numerical control: Are retro-fits the answer to 'obsolete' NC?, **Apr p25**
Numerical control: BNCS 79 (exhibition preview), **Apr p35**
Numerical control: How CNC punching is revolutionising sheet metal working; Matt Lincoln, **Nov p19**
Numerical control: How the Marshes became an NC family, **Apr p19**

O

Our unique position. Our rightful place (editorial leader); J E Reeve, **June p5**

P

Perspective of a teaching company programme, A (1979 E W Hancock Paper); Prof Roy Sury, **May p36**
Plastics: Working with plastics, **May p19**
Principal officers 1979/80, **Jul/Aug p51**
Printed circuit boards, the manufacture of: R H Pritchard, **Dec p29**
Process control: Minis for process control in injection moulding; Dr Gary Edwards, **Feb p35**
Product liability—American style, **Mar p39**
Production and constructive employment flexibility in manufacture: Dr H Peter Jost CBE, **Dec p43**
Production management: The man with his head on the block; Vas Prabhu and Jon Russell, **May p27**
Punching: How CNC punching is revolutionising sheet metal working; Matt Lincoln, **Nov p19**

Q

Quality and the IProdE (editorial leader); A G MacGregor, **May p5**
Quality assurance: Inspection by sampling; Harry Croasdale, **Sep p55**
Quality circles—Japan's way to better quality, **Nov p35**
Quality control: Making Britain quality conscious, **May p46**

R

Retro-fitting: Are retro-fits the answer to 'obsolete' NC?, **Apr p25**
Road to economic recovery, A (1979 Viscount Nuffield Memorial Paper); Sir John Greenborough, **Sep p56**
Robots: Britain's first robot exhibition, **June p23**
Robots: Don't be afraid of the robot, **June p21**
Robots make sense in hazardous jobs; Karel Erazim, **Mar p26**
Rutherford Lecture, 9th: Production and constructive employment flexibility in manufacturing: Dr H Peter Jost CBE, **Dec p43**

S

Sampling: Inspection by sampling; Harry Croasdale, **Sep p55**
Selecting adhesives for engineering assembly:, **Dec p37**
Sheet metal working: How CNC punching is revolutionising sheet metal working; Matt Lincoln, **Nov p19**
Shopfloor data collection; R M Hamilton, **Jul/Aug p26**
Shop loading in a machine building environment using a mini-computer; N G Norton, **Jul/Aug p22**

T

Taking the skill out of welding; Matt Lincoln, **Nov p43**
Teaching companies: A perspective of a teaching company programme (1979 E W Hancock Paper); Prof Roy Sury, **May p36**
Thread rolling—a neglected art; Walter H Froehlich, **Mar p19**
Time standards—a computer approach; K F Wills, **Jul/Aug p24**

U

Universities: British universities—are they overdue for rationalisation; Douglas Probert, **Oct p27**
User's view of DP-based materials planning, A; J E G Fletcher, **Jul/Aug p24**

V

Visit to Japan, A; Alan Jones, **Jul/Aug p47**
Vital half hour—or how to reduce your electricity bills, The, **Sep p28**

W

Welding: Monitoring the quality of resistance spot welding; John Broomhead, **Feb p27**
Welding: Taking the skill out of welding; Matt Lincoln, **Nov p43**
Well equipped for a vital role (editorial leader); Sir Sidney Bacon, **Jul/Aug p5**
Working with plastics, **May p19**

Author index

A

Acton, R G: Capacity planning in an aerospace components factory, **Jul/Aug p22**
Adams, Kenneth: Engineering into the '80s, **Jul/Aug p33**

B

Bacon, Sir Sidney: Well equipped for a vital role (editorial leader), **Jul/Aug p5**
Benjamin, K S: How to prevent your computerised bill of materials becoming a white elephant, **Jul/Aug p25**
Broomhead, John: Monitoring the quality of resistance spot welding, **Feb p27**

C

Chappell, Haydn: MRP refinements using on-line systems, **Jul/Aug p23**
Chester, John: Capacity planning and scheduling for agricultural machinery manufacture, **Jul/Aug p22**
Collins, John: Giving flexibility to batch manufacturing, **Feb p31**
Conway, R D: How microprocessors are made, **Feb p19**
Croasdale, Harry: Inspection by sampling, **Sep p55**
Cullen, Dr Joseph and Fred Graham: How to decide when to replace machine tools, **Apr p53**

E

Edwards, Dr Gary: Minis for process control in injection moulding, **Feb p35**
Erazim, Karel: Robots make sense in hazardous jobs, **Mar p26**

F

Fletcher, J E G: A user's view of DP-based materials planning, **Jul/Aug p24**
Froehlich, Walter H: Thread rolling—a neglected art, **Mar p19**

G

Graham, Fred and Dr Joseph Cullen: How to decide when to replace machine tools, **Apr p53**
Greenborough, Sir John: A road to economic recovery (1979 Viscount Nuffield Memorial Paper), **Sep p56**

H

Hamilton, R M: Shopfloor data collection, **Jul/Aug p26**
Hislop, Dr George: In defence of the CEI, **Sep p33**
Howes, R and A A Thompson: Inside the microprocessor, **Feb p17**
Hancock, Cyril: Integrated manufacturing systems—a challenge, **Dec p49**

J

Jones, Alan: A visit to Japan, **Jul/Aug p47**
Jost, Dr H Peter CBE: Production and constructive employment flexibility in manufacturing (9th Rutherford Lecture), **Dec p43**

K

Karlsson, Kjell-Ove: Channel furnace solutions, **Mar p27**

L

Lincoln, Matt; How CNC punching is revolutionising sheet metal working, **Nov p19**
Lincoln, Matt: Taking the skill out of welding, **Nov p43**

M

MacGregor, A G: Quality and the IProdE (editorial leader), **May p5**
Martin, C A: Implementation of a computerised work-in-progress control system, **Jul/Aug p23**

N

Norton, N G: Shop loading in a machine building environment using a mini-computer; N G Norton, **Jul/Aug p22**
Nuttman, Les: Demand forecasting, **Jul/Aug p21**

P

Prabhu, Vas and John Russell: The man with his head on the block, **May p27**
Probert, Douglas: British universities—are they overdue for rationalisation, **Oct p27**
Pritchard, R H: The manufacture of printed circuit boards, **Dec p29**

R

Reeve, Joe: Annual dinner speech, **Jan p20**
Reeve, J E: Our unique position. Our rightful place (editorial leader), **June p5**
Russell, Jon and Vas Prabhu: The man with his head on the block, **May p27**

S

Seear, Rt Hon Baroness: The management of equal opportunity (1979 Sir Alfred Herbert Paper), **June p28**
Seymour, B and G H West: Casting with metal slurries, **Nov p31**
Shaw, Dr G W: Evolution and interaction of design and production information, **Jul/Aug p26**
Sury, Prof Roy: A perspective of a teaching company programme (1979 E W Hancock Paper), **May p36**

T

Tranelid, Ingemar: Air control aids recruitment, **Mar p28**

V

Varley, Eric: Annual dinner speech, **Jan p22**

W

West, G H and B Seymour: Casting with metal slurries, **Nov p31**
Wills, K F: Time standards—a computer approach, **Jul/Aug p24**

Printed by Garnett Print Ltd., Rotherham and London
